## About Us

Welcome to HALOGENS, where innovation meets excellence in the realm of pharmaceutical intermediates and specialty chemicals. With a proud legacy spanning 32 years, we are at the forefront of revolutionizing manufacturing in these fields. Our commitment to quality, innovation, and reliability has positioned us as a leader in delivering cutting-edge solutions to industries worldwide.

Since our establishment in 1992, HALOGENS has embarked on a journey fueled by a passion for excellence and an unwavering dedication to meeting the dynamic needs of our customers. Our state-of-the-art facilities, stringent quality standards, and a team of ingenious experts consistently surpass expectations, ensuring the delivery of high-quality products and services.

As a premier supplier of Pharmaceutical Intermediates and Specialty Chemicals to Bulk Drug Companies and Personal Care industries, HALOGENS proudly holds a robust domestic and international presence. Our impressive clientele, both locally and globally, is a testament to our reputation built on top-notch products, impeccable business practices, and a commitment to meeting delivery schedules with unwavering precision and maintaining stringent quality standards. Join us on this journey where excellence is not just a goal but a way of life.

### MISSION

At HALOGENS, our mission is to provide high-quality Excipients and other inorganic products, advancing global healthcare. Through rigorous research, innovation, and steadfast adherence to strict quality standards, we strive to make a positive difference in patients' lives and contribute to the betterment of society. Join us as we lead the way in excellence, shaping a healthier future through top-tier pharmaceutical solutions.

Our vision is to be a trailblazer in the Pharma Excipient industry, driving transformative advancements in healthcare. We envision a future where our cutting-edge research and innovative manufacturing processes lead to the development of life-changing therapies.

### VISION

## Our products redefine versatility, finding applications across diverse industries.

# JOURNEY

**1992**

Company Established

**1995**

Started Exporting Products to International Markets

**1998**

Achieved ISO 9001:2015 Certification for Quality Management Systems

**2007**

Obtained Drug License for Pharma Products

**2009**

Obtained GMP Certification for Manufacturing Standards

**2012**

Expanding Second Unit to Increase Production Capacity

**2016**

Diversified Product Portfolio to Include Specialty Excipients

**2021**

Achieved Turnover of More than 50 Cr.

**2023**

Proudly Serving More Than 350+ Trusted Companies Worldwide

**2025**

Capturing the European Market

# OUR Infrastructure & TEAM

- **Research And Development Professional**
- **Marketing Experts**
- **Hard Working Employees and Management Team**
- **Talented and Experienced QA & QC Team**

We take pride in our dedicated team of professionals whose expertise and passion drive our success. Our collective goal is to be a catalyst for progress, consistently raising the bar and setting new benchmarks in the pharmaceutical intermediates and specialty chemicals industry.

## Company Value

Our core values of integrity, innovation, and customer-centricity guide every aspect of our operations. We prioritize sustainable practices, adhering to stringent environmental and safety standards, ensuring a responsible approach in every stage of our manufacturing processes.

## Why US

### WE'RE CHEMICAL EXPERTS

Our deep understanding of product applications and usage allows us to offer tailored product solutions backed by technical knowledge.

### 50+ SPECIALIZED PRODUCT RANGE

With a keen focus on fine chemical products, including technically challenging ones. For hard-to-find chemicals, we offer a customized sourcing service.

### PRODUCT INNOVATION

Adapting and tailoring products to cater to new markets and industries.

### A UNIQUE GLOBAL NETWORK

Access our extensive global network and experienced team, built by pioneers in emerging markets around the world.

### DOCUMENTS

We ensures seamless documentation for excipients, facilitating smooth processes with precision. Choose HALOGENS for excellence in streamlined documentation.

### GMP STANDARDS

We excels in GMP standards, ensuring global compliance, rigorous quality control, and sustainability.

## Our Team

We believe in team work and that's the reason behind our success and impressive performance in the market. Our team consist experts and professionals which help us in every manner. Our team members are dedicated and loyal towards their work. Each and every member has his/her own importance and they perform their duty with responsibility which takes our company to the heights of success.

# Quality Assurance

At Halogens, we prioritize the highest standards of Quality Assurance (QA) and Quality Control (QC) throughout our manufacturing processes. Our commitment to excellence ensures that every product we produced meets and exceeds regulatory and industry requirements.

Quality assurance is part of the ecosystem that ensures customers receive quality products devoid of unexpected defects. Quality assurance is the way that manufacturers manage product quality (as opposed to quality verification).

## Exemplary Quality Control

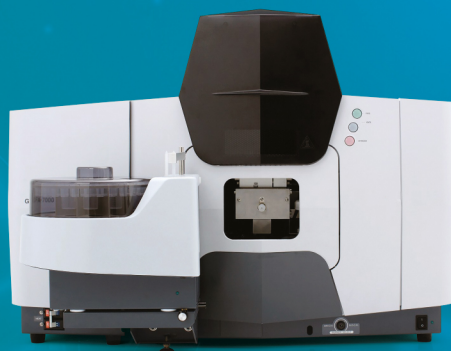

As an ISO 9001:2015 Certified Company, HALOGENS champions excellence. Our independent Quality Control department operates with precision, maintaining meticulous records. Regular calibration and testing ensure the reliability of our cutting-edge equipment in this non-polluting facility that releases zero effluents into public utility systems.

At HALOGENS, Quality Control is an unwavering commitment. Every stage, from incoming to in-process and finished goods, undergoes a stringent inspection process. With the latest in-house equipment, we guarantee the production of products that epitomize 100% quality excellence.

### Auto Titration

Standardization of testing, reducing the duration of sample handling steps, improvements in TAT, and eliminating the potential human errors, all of which improve accuracy, repeatability and ensure an accurate result.

### AAS

Atomic Absorption Spectrophotometer (AAS): instrument that measures the absorbance of the test sample at a specific wavelength by measuring the amount of light transmitted by the sample and Detection of impurities. High sensitivity (up to ppb detection).

### Karl Fischer Titration

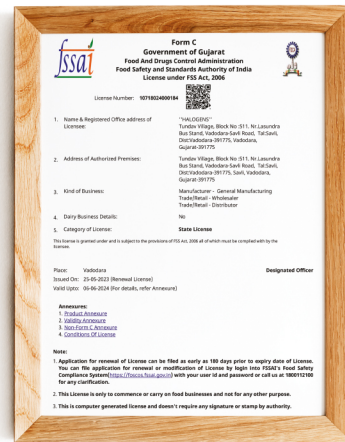

To measure the amount of water in a sample.

We have also in-house GC, HPLC and Potentiometric titrator for the Accurate of results.
